**For the foreseeable future,
I'm all about building
blockchain-based
decentralized services.**

**Fred Ehrsam
Co-Founder of Coinbase**

INTRODUCTION

The entire landscape of finance has been completely upended in the past decade. It is moving from a centralized understanding of the world to one that is decentralized. Tech entrepreneur and cryptocurrency advocate Andreas Antonopoulos¹ said that when an industry, such as finance, transitions to a more decentralized and open model then a “tsunami of innovation that was pent up for decades is suddenly released.”

We are in the early stages of experiencing this powerful tsunami with the emergence of powerful blockchain² technology and the crypto space. An article recently published by the National Association of Securities Dealers Automated Quotations (Nasdaq)³ described this decentralized force rather succinctly:

A new wave of financial innovation is upon us. Decentralized Finance (DeFi) provides the solid foundation for new financial services that are so powerful and advantageous that we will soon look back on them and question how we ever operated without them.

The system of banking and finance, as it was established in the early 20th century, is becoming rather antiquated and highly distrusted. Sadly, even though we are in an explosive digital era, the entrenched global markets for the worldwide money system are still largely controlled by governments and central banks that benefit only the elite few. This system is plagued with misuse and mistrust. It no longer works for the vast majority of people that are not already exceptionally wealthy.

¹ Andreas M. Antonopoulos is a British-Greek Bitcoin advocate, tech entrepreneur, and author. He is a host on the Speaking of Bitcoin podcast and a teaching fellow for the M.Sc. Digital Currencies at the University of Nicosia.

² A blockchain is a distributed database that is shared among the nodes of a computer network. As a database, a blockchain stores information electronically in digital format. Blockchains are best known for their crucial role in cryptocurrency systems, such as Bitcoin, for maintaining a secure and decentralized record of transactions. The innovation with a blockchain is that it guarantees the fidelity and security of a record of data and generates trust without the need for a trusted third party. See generally “Blockchain Explained,” Investopedia, updated November 4, 2021 at <https://www.investopedia.com/terms/b/blockchain.asp>.

³ The article from Nasdaq also notes that decentralized financial instruments make cryptocurrency and the blockchain sector capable of accomplishing what was once only possible in traditional money markets. See “Decentralized Finance (DeFi): An Emerging Giant,” Nasdaq, January 15, 2021 at <https://www.nasdaq.com/articles/decentralized-finance-defi%3A-an-emerging-giant-2021-01-15>.

It seems that billions of people are excluded from the real fruits of the centralized banking systems originally set up to cater to an ultra-wealthy patronage. The average person is largely left out and normally does not get the opportunity to invest and earn the kind of returns that those at the top are routinely raking in from this outdated and select system.

To further exacerbate matters, ordinary people are not getting any real value from placing their hard-earned funds in savings accounts with these centralized financial institutions. Pension funds are also significantly underperforming. In fact, unless you are fortunate enough to already have \$500,000 to participate, none of the so-called "top" hedge funds will even so much as look your way.

Well, all of this is rapidly changing with the rise of decentralized finance (DeFi) and the rollout of Ghost Trader—the world's very first tokenized⁴ hedge fund. We believe that the 21st century must have a fair system of decentralized finance that serves the needs of all—not just the uber rich.

As such, Ghost Trader has been established to avoid reliance on central financial intermediaries such as brokerages, exchanges, or banks that offer the general public highly diluted investment products. Instead, this project will utilize and pool funds using smart contracts⁵ on a blockchain to offer something truly unique and remarkable.

It seems that billions of people are excluded from the real fruits of the centralized banking systems originally set up to cater to an ultra-wealthy patronage. The average person is largely left out and normally does not get the opportunity to invest and earn the kind of returns that those at the top are routinely raking in from this outdated and select system.

⁴Asset tokenization is the process by which an issuer creates digital tokens on a distributed ledger or blockchain, which represent either digital or physical assets. Blockchain guarantees that once you buy tokens representing an asset, no single authority can erase or change your ownership—your ownership of that asset remains entirely immutable.

⁵ "Smart contracts" is a term used to describe computer code that automatically executes all or parts of an agreement and is stored on a blockchain-based platform. The code can either be the sole manifestation of the agreement between the parties or might complement a traditional text-based contract and execute certain

The mission of Ghost Trader is to offer a decentralized “hedge fund” that comes with superlative trading professionalism and a level of knowledge not yet seen anywhere in DeFi. We are creating a disruptive, tax efficient token that will provide participants with a double opportunity to gain returns in the form of token “dividends” on top of token appreciation.

This project is NOT suitable for the masses online who view new coins and tokens as a quick “pump and dump” operation. This is not who we are and certainly not the aim of this project. Ghost Trader is a serious platform that is best suited for niche clientele that would like to participate in a groundbreaking project that will synergistically combine great trading returns into a fully decentralized finance ecosystem.

The Ghost Trader platform has been carefully planned and designed to extract the best returns possible from global financial markets by utilizing our “ghost trader” and

The Ghost Trader platform has been carefully planned and designed to extract the best returns possible from global financial markets by utilizing our “ghost trader” and exceptional team of ex-bankers and trading veterans who have nearly a century of combined trading experience at top organizations.

exceptional team of ex-bankers and trading veterans who have nearly a century of combined trading experience at top organizations. Moreover, the team possesses expertise on some of the most efficient spread betting platforms.

The focus of the ghost trader and team will be based on a mix of fundamental market understandings along with the techniques that professional traders use to control risks. They will be working for you. Some of the most profitable trading scenarios are built on the backs of other traders and funds that lack a real understanding of how to effectively deal with losing trades. We typically enter a number of positions where other

provisions, such as transferring funds from Party A to Party B. The code itself is replicated across multiple nodes of a blockchain and, therefore, benefits from the security, permanence, and immutability that a blockchain offers. See “An Introduction to Smart Contracts and Their Potential and Inherent Limitations,” Harvard Law School Forum on Corporate Governance, May 26, 2018 at <https://corpgov.law.harvard.edu/2018/05/26/an-introduction-to-smart-contracts-and-their-potential-and-inherent-limitations/>.

traders and funds are quickly exiting losing trades—allowing us to take full advantage of the crucial volatility “in the moment.”

As mentioned, Ghost Trader is the world’s first tokenized crypto “hedge fund.” We will utilize the unique characteristics of both blockchain and smart contracts to pool together money from buyers for our professional traders to use. Profits will be distributed right back to holders on a monthly basis in the form of BUSD⁶ dividends. This will be relative to their holdings of Ghost Trader Coin—GTR. We believe this will assure a consistent, steady passive income for years to come. Obviously, this does not even take into account the potential of GTR appreciation over time.

The central strategy behind Ghost Trader is the ability to “read the minds” of other traders and funds, then we use this understanding for how we make trading decisions that impact our coin/token. Please note we do NOT focus on the Bot business of sniping arbitrage opportunities in microsecond moves. Ghost Trader has real substance behind it, unlike many other coins that have gained a cult following but ultimately crashed and burned.

With the Ghost Trader token common sense prevails. It is a blockchain concept that nobody has ever seen before in this space. It offers sustainable returns in the form of dividends along with token price appreciation. The well thought out structure behind GTR emulates what the top-rated hedge funds around the world offer to their blue-chip clients. The only difference is that Ghost Trader adds significant transparency.

With the Ghost Trader token common sense prevails. It is a blockchain concept that nobody has ever seen before in this space. It offers sustainable returns in the form of dividends along with token price appreciation. The well thought out structure behind GTR emulates what the top-rated hedge funds around the world offer to their blue-chip clients.

⁶ BUSD is the official U.S. dollar-pegged stable coin of Binance—which is currently the largest cryptocurrency exchange in the world in terms of daily trading volume of cryptocurrencies. See generally <https://www.binance.com/en>.

Today, accessibility to credible initial coin offerings (ICOs) is almost impossible to find. There is a definite dearth of credible sources, research, and bona fide information resulting in a lack of trust for most offerings.

02

HOW GHOST TRADER WORKS

For those interested in participating in this project for the possibility of hedge fund-sized returns in a secure, decentralized space, please read the following details carefully. We wish to make our intentions clear from the very start. This is ONLY an opportunity for a professional, like-minded community that wishes to share in their success together. It is for educated people who understand the current financial markets and would enjoy taking this financial ride with us.

Please know from the get-go that success for Ghost Trader is not measured by seeing the token price increase 10X. Rather, it's the longevity and regular returns that we aim to give our token holders. We truly want to share the love and the rewards all around, which is why we are prepared to give the biggest slice to our token holders FIRST.

So, to make this happen, we are going to do something that is definitely unique in this new world of blockchain and De-Fi. Where other token developers all like to make themselves the money first and then let any remainder trickle down to participants if they are lucky or astute enough to get in and out at the right time—we will absolutely NOT be doing that. In other words, we will only be successful if our participants are first. Accordingly, the dividends we are structuring for Ghost Trader for our clientele will come out of the pot first.

Here are the ground rules and our initial steps to success:

- The Ghost Trader project will be initially established on the Binance Smart Chain (BSC),⁷ a fast and secure decentralized digital asset blockchain.

⁷ For details on the Binance Smart Chain (BSC), please visit <https://www.binance.org/en/smartChain>.

- We will pool all of the initial participants' funds and have our trading team begin trading immediately, even prior to the official launch of the coin—the majority of the BNB⁸ received will be placed into the first trading portfolio.
- Early participants or contributors—through either a Private or VIP sale—will receive a share of 65% of the profit pool for any part of the period the profits were generated. These profits will be shared equally among token holders according to the number of tokens held during that period.

EXAMPLE CALCULATION

If the profit pool for the two-week period in question were £100,000, the profit pot for the Private or VIP token holders would be 65% of £100,000 or £ 65,000. So, let's say 100,000 tokens have been issued to keep things simple. If you're holding 1,000 tokens all through the two-week period in question your portion of the pool will be £650.

This can either be loaded to a Ghost Trader Visa Debit card or you can choose to compound your holdings and buy more Ghost Trader tokens. Likewise, if you prefer, you can receive your dividend payments in USD Coin. The Private and VIP holders will continue to receive the 65% share throughout the lifetime of the project.

- Those participants who wait until the pre-sale or official launch will receive a 50% share of the profit pool—so 15% less than the Private or VIP participants or contributors.

⁸ BNB is the Binance coin or native cryptocurrency of the Binance platform.

- 90% of the trading portfolio will be traded by the trading team in foreign exchange (FX), the Dow Jones Industrial Average (DOW), Financial Times Stock Exchange 100 Index (FTSE), Gold, and Oil markets.
- 10% will eventually be used to trade in the wider crypto market in carefully vetted projects.
- The majority of trading will involve day trading in FX using a mixture of fundamental analysis along with the team's understanding of market sentiment. This will also include the way other traders evaluate risk/reward.
- In the weeks to come, we will also be adding a shorter-term strategy using advanced order book trading techniques to take advantage of volume spikes.
- We will also be taking advantage of select arbitrage opportunities in fragmented markets when appropriate.

THE GHOST TRADER TEAM

Below is the core leadership team that will act as the driving force behind Ghost Trader. Altogether they have 100+ years of combined experienced in banking and financial markets.

The “Ghost Trader” has over 35 years’ experience trading in London, New York, and the Middle East.

After a distinguished trading career for major banks, he spent some time in the Middle East running a busy Royal Family trading office. Since 1998 he has traded for two major hedge funds predominately in Forex but has in the last 15 years expanded his day and shorter-term trading strategies to include the major indices, gold, and oil products.

His ability to evaluate the markets in terms of volatility and understand how other traders and “Bots” control risk enables him to take full advantage of specific moves that other traders over-think. He has an unblemished trading record producing year-on-year returns of over 60% from 1998-2008. Since then, he also has even bigger returns trading for a hedge fund as one of the more aggressive portfolio traders in the group.

The last two years have seen exceptionally volatile markets, and he returned over 280% last year and is already showing a return of 286% as of the end of October 2021. While these are exceptional years, it’s clear the markets are prone to more volatility as more and more funds are diversifying into the crypto asset class.

Consequently, the “Ghost Trader” has taken a keen interest in the crypto revolution and has been a consultant for a leading U.S. based crypto trading software provider for the past three years. His team offers different skills that complement one another—such as technical analysis, momentum trading, and arbitrage trading, but overall, they will always offer bespoke trading strategies.

GHOST TRADER DON **Co-Founder**

Ghost Trader Don is an experienced and successful trader with more than 20 years of knowledge gained trading commodities, oil, diamonds, bonds, gilts, and options for a number of tier one investment houses in the both the City of London and internationally.

Prior to his trading career, Don worked in the telecommunications space managing large international sales teams. As a skilled sales management professional and successful trader, Don has both the knowledge and experience to make his dream come true by launching the world's first tokenized crypto hedge fund.

Conceptualized over a number of years while working in partnership with his lifelong friend The Ghost Trader, this credible, experienced, and highly energized partnership is preparing to turn the De-Fi space on its head by providing the everyday person with easy access to financial, wealth generating products that are normally reserved for the super-rich and elite of this world.

MR. PROFESSIONAL
Executive Advisor

Mr. Professional is a former wealth manager and banking executive with over 25 years of experience in the financial services and technology sectors. He has been involved with setting up start-ups and helped with raising capital share by funding.

Over the last 12 years his focus has been in structuring banking investments with bonds and securities while working with licensed traders. These securities are usually set at a fixed price and sold to an exit such as a hedge or pension fund. This is done at a different price and the margin created represents the gross profit. Market volatility does not affect this managed buy/sell sector. Accordingly, it will provide Ghost Trader with more stability.

Specialties include financial and commercial sectors. He is also highly experienced in financial marketing; investment; trade and banking; Fintech; and Software as a Service (SaaS).

THE GRAND WITCH
Senior Head of Operations, Sales, and Communications

The Grand Witch has 25 years of sales, sales management, and leadership experience gained within the technology space. He has consistently worked with large, fast growing international businesses. On the side, he is also known for his uncanny knack of predicting the future, exterminating the stupid and the foolish, and taking far away trips on his broomstick.

ETHEREAL

Head of Operations, Partnerships, and Innovations

Ethereal has been involved in and obsessed with the crypto space for 5+ years. He has frequently invested and traded crypto along with other digital asset. Previously, he launched several projects within these spaces. Overall, his highly versatile background consists of business, banking, digital-asset trading/investing, leadership, and IT.

CC

Head of Communications and Executive Support

With 10 years corporate, strategic communications, and executive support gained within the international relations and logistics space, CC has worked with large, fast growing, dynamic businesses. She is known for her unbridled passion and determination. Ghost Trader is delighted to have CC as part of the core leadership team supporting this amazing journey. CC enjoys travelling and is working towards becoming a humanitarian.

Head of Development

The Dev, better known as our techno-wizard, has many years of programming experience in both crypto and non-crypto capacities. He is always seeking and searching for ways to make things more efficient and creating awesome functionality. The Dev has many small coin projects under his belt. He is also a leading member of the Gateway community with many contacts in the Binance Smart Chain (BSC) space. Overall, he is respected and trusted by many people.

LEVERAGING THE GHOST TRADER

Our ultimate goal in terms of trading is to fully take advantage of the Ghost Trader's unique strategic partnerships in the financial markets. Not only does he have expertise in Treasury and Capital Markets, but he can structure trades in the very lucrative financial instrument market too.

We also have an opportunity to engage with a licensed medium term note trader in Europe and to have our own contract of fresh cut medium term notes. These will be managed by the licensed trader who will simply use the "proof of funds" on our account to buy a pre-arranged MTN and simultaneously sell this to his exit buyer.

In the first quarter of 2022, we are projecting that we will be in a position to use funds raised from this project to engage with the trader and provide part of the \$50,000,000 entry level needed to play in this arena. The funds themselves are never risked as the trader will simply use them to structure the leveraged buy/sell of the MTN.

See the example calculation on the next page.

EXAMPLE CALCULATION

For example, if we provide \$10,000,000, as part of the \$50,000,000 required, the transaction would be structured as follows:

\$50,000,000 would trigger a 10 X \$ 500,000,000 tranche of medium-term notes. Depending the size of a Managed Buy/Sell MTN contract, these would be simultaneously sold by the trader over a 6-12-week period with only the profit from the sale being reflected on the account 24 hours of the trader as each transaction is closed. The net profit to the group(s) providing the \$50,000,000 will be 10% of the total face value of the MTNs or \$500,000,000.

So, using our \$10,000,000 would give us a net profit of \$100,000,000 over the 6-week period. We can then disburse 60-65% of this to our token holders during the period as per our regular trading dividends. But we could also increase our interest in a subsequent buy/sell of MTNs to \$50,000,000 while disbursing 60-65% of the remaining \$50,000,000 to our token holders. We would then receive the full \$500,000,000 from the next 6-week trading tranche. We can do this at least three times. So, our token holders can receive never seen before rewards without worrying about the actual price of our token.

TOKENOMICS

05

TOKEN ALLOCATION

Total GTR Tokens Will Be 100,000,000. Private Sale Contributors Will Receive 45,600 GTR Tokens Per 1 BNB or Pro-Rata to That. All Other Contributors Will Receive 38,000 GTR Tokens Per 1 BNB or Pro-Rata to That.

Estimated Launch Starting Price: \$0.015

Estimated Starting MC: 1.5m

Private Sale and VIP Participants Will Be Limited to 40% of the Allocated Token Amount

Pre-Sale Participants Will Be Limited to 30% of the Allocated Token Amount (40% Private Sale, 30% Pre-Sale, and 30% Public)

DIVIDENDS AVAILABLE ON TRADING PROFITS

Private Sale and VIP Participants Will Receive 65% of the Trading Profits (During the Lifetime of Holding the Tokens and Including Any Future Purchases)

Pre-Sale Participants Will Receive 50% of the Trading Profits (During the Lifetime of Holding the Tokens and Including Any Future Purchases)

Launch Buyers and New Buyers After the Launch Will Receive 50% of the Trading Profits

www.ghosttrader.uk

Breakdown of Profits

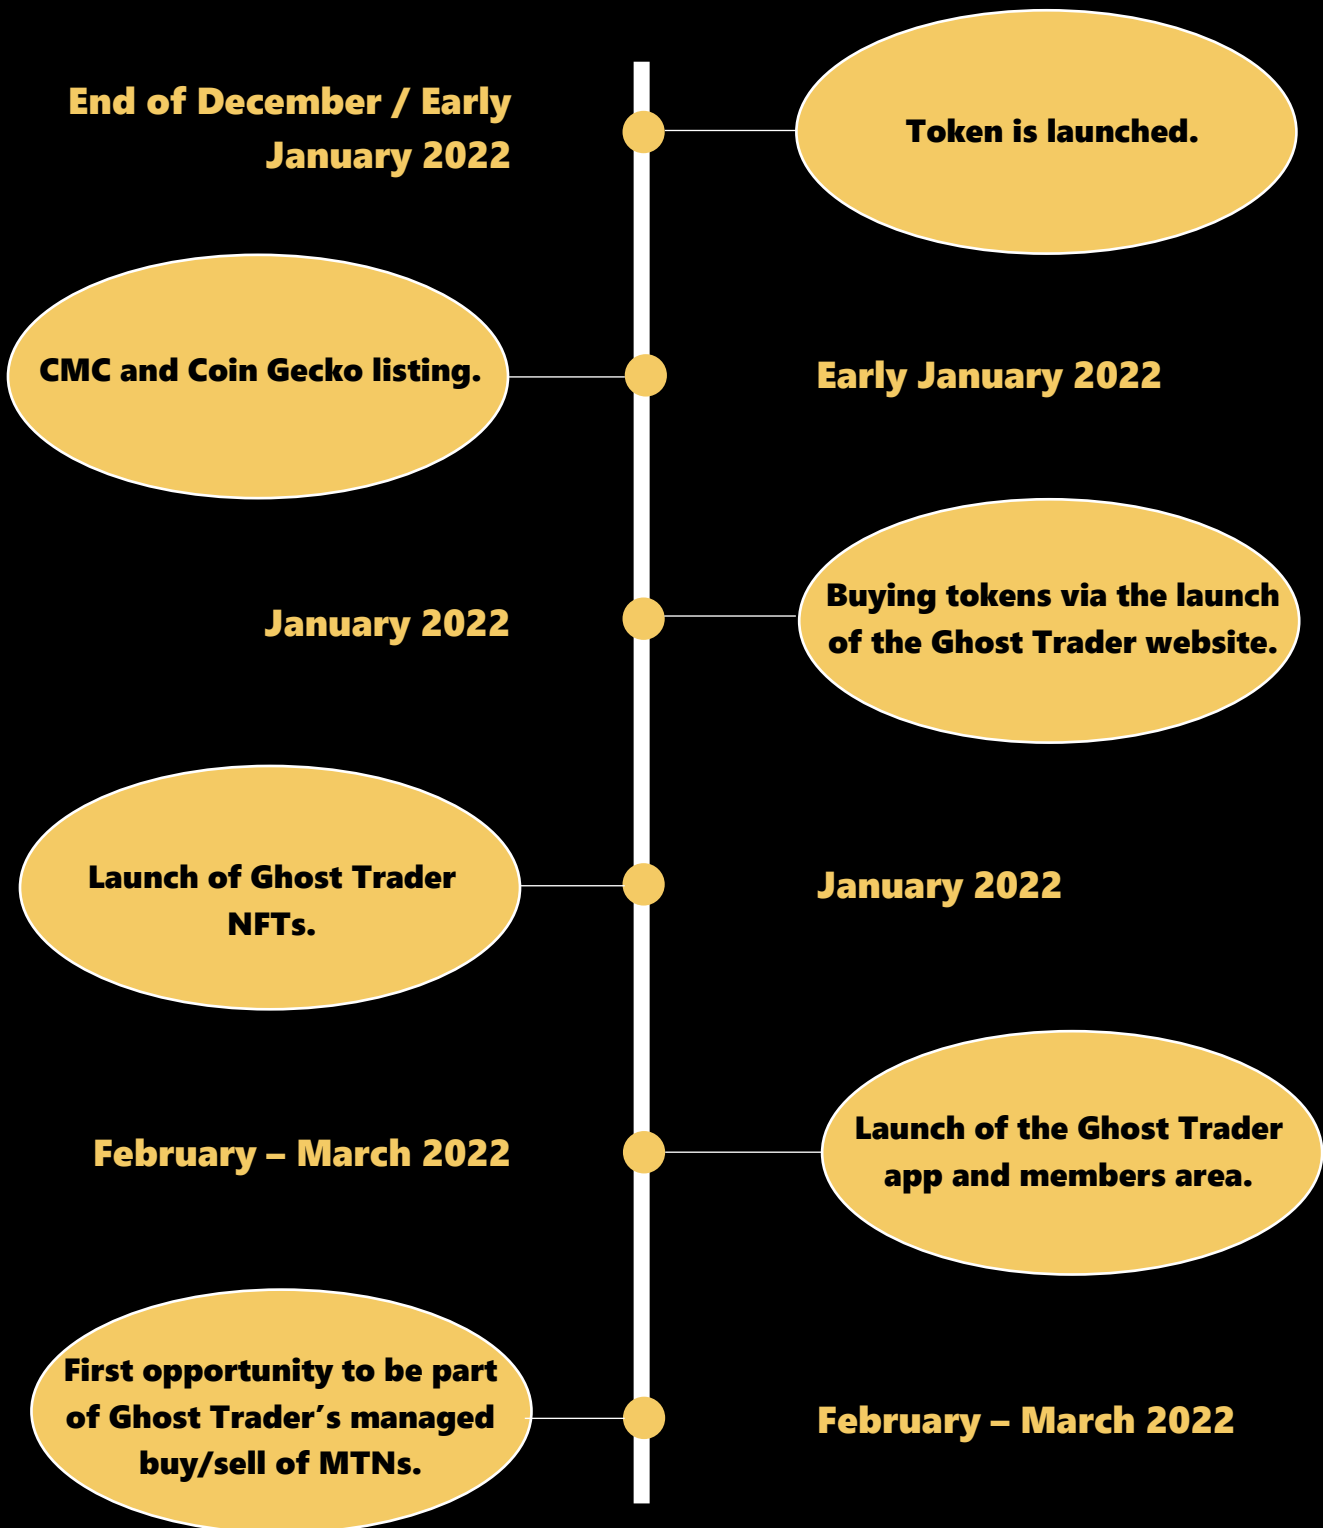

The 35% for the company covers operating costs, marketing, and trader fees.

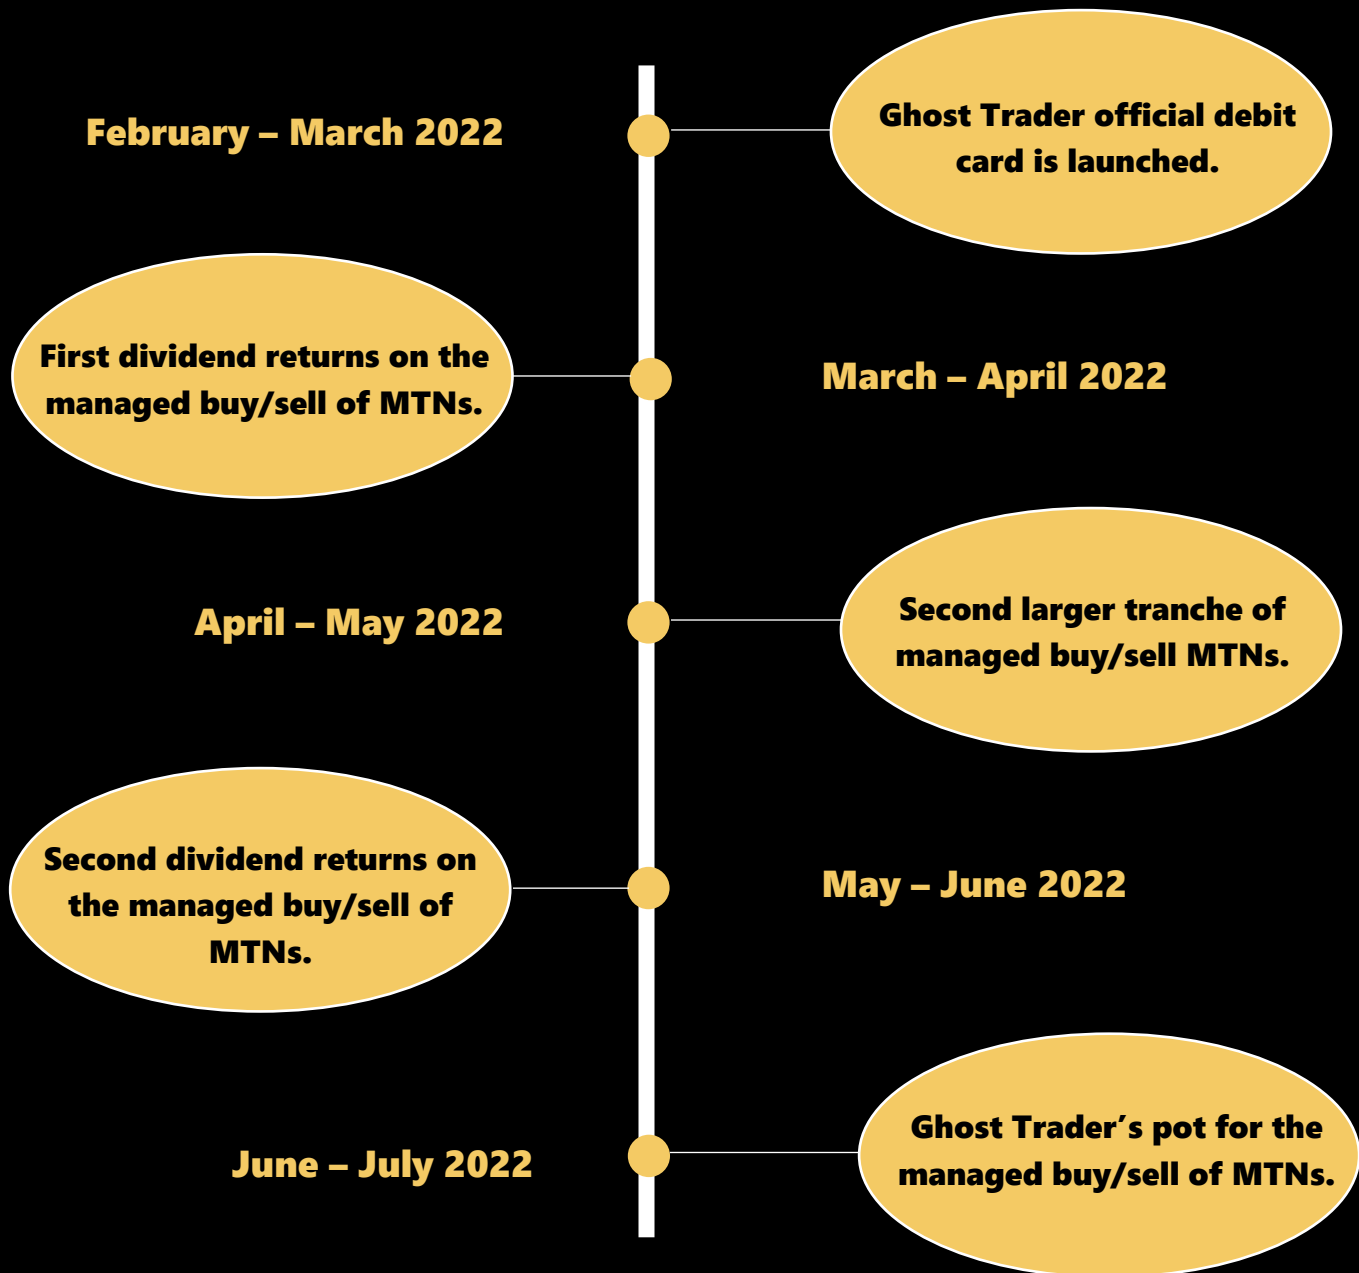

ROADMAP

Below is the Ghost Trader roadmap of upcoming milestones and important project events through July 2022.

LEGAL INFORMATION

GENERAL

DISCLAIMER OF LIABILITY

To the maximum extent permitted by the applicable laws, regulations, and rules, Ghost Trader and/or the Distributor shall not be liable for any indirect, special, incidental, consequential, or other losses of any kind, in tort, contract, or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this Lite Paper or any part thereof by you.

NO REPRESENTATIONS AND WARRANTIES BY GHOST TRADER

Ghost Trader and/or the Distributor does not make or purport to make, and hereby disclaims, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this Lite Paper.

REPRESENTATIONS AND WARRANTIES BY YOU

By accessing and/or accepting possession of any information in this white paper or such part thereof (as the case may be), you represent and warrant to Ghost Trader and/or the Distributor as follows: (a) you agree and acknowledge that the Ghost Trader tokens do not constitute securities in any form in any jurisdiction; (b) you agree and acknowledge that this Lite Paper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of this Lite Paper; (c) you agree and acknowledge that no regulatory authority has examined or approved of the information set out in this Lite Paper, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of this Lite Paper to you does not imply that the applicable laws, regulatory requirements or rules have been complied with; (d) you agree and acknowledge that this Lite Paper, the undertaking and/or the completion of the Ghost Trader Initial Private & VIP Token Sale, or future trading of the Ghost Trader tokens on any cryptocurrency exchange, shall not be construed, interpreted or deemed by you as an indication of the merits of the Ghost Trader and/or the Distributor, the Ghost Trader tokens, the Ghost Trader Initial Private & VIP Token Sale. (e) the distribution or dissemination of this Lite Paper, any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to Ghost Trader and/or the Distributor; (f) you agree and acknowledge that in the case where you wish to purchase any Ghost Trader tokens, the Ghost Trader tokens are not to be construed, interpreted, classified or treated as: (i) any kind of currency other than cryptocurrency; (ii) debentures, stocks or shares issued by any person or entity (whether Ghost Trader and/or the Distributor) (iii) rights, options or derivatives in respect of such debentures, stocks or shares; (iv) units in a collective investment scheme; (v) units in a business trust; (vi) derivatives of units in a business trust; or (vii) any other security or class of securities. (g) you have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies,

blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology; (h) you are fully aware and understand that in the case where you wish to purchase any Ghost Trader tokens, there are risks associated with Ghost Trader and the Distributor and their respective business and operations, the Ghost Trader tokens, the Ghost Trader Initial Private & VIP Token Sale. (i) you agree and acknowledge that neither Ghost Trader nor the Distributor is liable for any indirect, special, incidental, consequential, or other losses of any kind, in tort, contract, or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this Lite Paper or any part thereof by you; and (j) rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss; (k) all of the above representations and warranties are true, complete, accurate and non-misleading from the time of your access to and/or acceptance of possession this Lite Paper or such part thereof (as the case may be).

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in this Lite Paper, statements made in press releases or in any place accessible by the public, and oral statements that may be made by Ghost Trader and/or the Distributor or their respective directors, executive officers or employees acting on behalf of Ghost Trader or the Distributor (as the case may be), that are not statements of historical fact, constitute "forward- looking statements". Some of these statements can be identified by forward-looking terms such as "aim", "target", "anticipate", "believe", "could", "estimate", "expect", "if", "intend", "may", "plan", "possible", "probable", "project", "should", "would", "will" or other similar terms. However, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding Ghost Trader and/or the Distributor's financial position, business strategies, plans and prospects, and the future prospects of the industry which Ghost Trader and/or the Distributor is in are forward-looking statements. These forward-looking statements, including but not limited to statements as to Ghost Trader and/or the Distributor's revenue and profitability, prospects, future plans, other expected industry trends and other matters discussed in this Lite Paper regarding Ghost Trader and/or the Distributor are matters that are not historic facts, but only predictions.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of Ghost Trader and/or the Distributor to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, amongst others: (a) changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which Ghost Trader and/or the Distributor conducts its respective businesses and operations; (b) the risk that Ghost Trader and/or the Distributor may be unable or execute or implement their respective business strategies and future plans; (c) changes in interest rates and exchange rates of fiat currencies and cryptocurrencies; (d) changes in the anticipated growth strategies and expected internal growth of Ghost Trader and/or the Distributor; (e) changes in the availability and fees payable to Ghost Trader and/or the Distributor in connection with their respective businesses and operations; (f) changes in the availability and salaries of employees who are required by Ghost Trader and/or the Distributor to operate their respective businesses and operations; (g) changes in preferences of customers of Ghost Trader and/or the Distributor; (h) changes in competitive conditions under which Ghost Trader and/or the Distributor operate, and the ability of Ghost Trader and/or the Distributor to compete under such conditions; (i) changes in the future capital needs of Ghost Trader and/or the Distributor and the availability of financing and capital to fund such needs; (j) war or acts of international or domestic terrorism; (k) occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of Ghost Trader and/or the Distributor; (l) other factors beyond the control of Ghost Trader and/or the Distributor; and (m) any risk and uncertainties associated with Ghost Trader and/or the Distributor and their businesses and operations, the Ghost Trader tokens, the Ghost Trader Initial Token Sale. All forward-looking statements made by or attributable to Ghost Trader and/or the Distributor or persons acting on behalf of Ghost Trader and/or the Distributor are expressly qualified in their entirety by such factors. Given that risks and uncertainties that may cause the actual future results, performance or achievements of Ghost Trader and/or the Distributor to be materially different from that expected, expressed or implied by the forward-looking statements in this Lite Paper, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the date of this Lite Paper. Neither Ghost Trader, the Distributor nor any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of Ghost Trader and/or the Distributor will be as discussed in those forward-looking statements. The actual results,

performance or achievements of Ghost Trader and/or the Distributor may differ materially from those anticipated in these forward- looking statements. Nothing contained in this Lite Paper is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of Ghost Trader and/or the Distributor. Further, Ghost Trader and/or the Distributor disclaim any responsibility to update any of those forward- looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.

MARKET AND INDUSTRY INFORMATION AND NO CONSENT OF OTHER PERSONS

This Lite Paper includes market and industry information and forecasts that have been obtained from internal surveys, reports and studies, where appropriate, as well as market research, publicly available information and industry publications. Such surveys, reports, studies, market research, publicly available information and publications generally state that the information that they contain has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of such included information. Save for Ghost Trader, the Distributor and their respective directors, executive officers and employees, no person has provided his or her consent to the inclusion and/ or other information attributed or perceived to be attributed to such person in connection therewith in this Lite Paper and no representation, warranty or undertaking is or purported to be provided as to the accuracy or completeness of such information by such person and such persons shall not be obliged to provide any updates on the same. While Ghost Trader and/or the Distributor have taken reasonable actions to ensure that the information is extracted accurately and in its proper context, Ghost Trader and/or the Distributor have not conducted any independent review of the information extracted from third party sources, verified the accuracy or completeness of such information or ascertained the underlying economic assumptions relied upon therein. Consequently, neither Ghost Trader, the Distributor, nor their respective directors, executive officers and employees acting on their behalf makes any representation or warranty as to the accuracy or completeness of such information and shall not be obliged to provide any updates on the same.

TERMS USED

To facilitate a better understanding of the Ghost Trader tokens being offered for purchase by the Distributor, and the businesses and operations of Ghost Trader and/or the Distributor, certain technical terms and abbreviations, as well as, in certain instances, their descriptions, have been used in this Lite Paper. These descriptions and assigned meanings should not be treated as being definitive of their meanings and may not correspond to standard industry meanings or usage. Words importing the singular shall, where applicable, include the plural and vice versa and words importing the masculine gender shall, where applicable, include the feminine and neuter genders and vice versa. References to persons shall include corporations.

NO ADVICE

No information in this Lite Paper should be considered to be business, legal, financial or tax advice regarding Ghost Trader, the Distributor, the Ghost Trader tokens, the Ghost Trader Initial Token Sale. You should consult your own legal, financial, tax or other professional adviser regarding Ghost Trader and/or the Distributor and their respective businesses and operations, the Ghost Trader tokens, the Ghost Trader Initial Private & VIP Token Sale. You should be aware that you may be required to bear the financial risk of any purchase of Ghost Trader tokens for an indefinite period of time.

No person has been or is authorized to give any information or representation not contained in this Lite Paper in connection with Ghost Trader and/or the Distributor and their respective businesses and operations, the Ghost Trader tokens, the Ghost Trader Initial Private & VIP Token Sale and, if given, such information or representation must not be relied upon as having been authorized by or on behalf of Ghost Trader and/or the Distributor. The Ghost Trader Private and VIP Token Sale (as referred to in the Lite Paper) shall not, under any circumstances, constitute a continuing representation or create any suggestion or implication that there has been no change, or development reasonably likely to involve a material change in the affairs, conditions and prospects of Ghost Trader and/or the Distributor or in any statement of fact or information contained in this Lite Paper since the date hereof.

RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION

The distribution or dissemination of this Lite Paper or any part thereof may be prohibited or restricted by the laws, regulatory requirements and rules of any jurisdiction. In the case where any restriction applies, you are to inform yourself about, and to observe, any restrictions which are applicable to your possession of this Lite Paper or such part thereof (as the case may be) at your own expense and without liability to Ghost Trader and/or the Distributor. Persons to whom a copy of this Lite Paper has been distributed or disseminated, provided access to or who otherwise have the Lite Paper in their possession shall not circulate it to any other persons, reproduce or otherwise distribute this Lite Paper or any information contained herein for any purpose whatsoever nor permit or cause the same to occur.

NO OFFER OF SECURITIES OR REGISTRATION

This Lite Paper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. No person is bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of this Lite Paper. Any agreement in relation to any sale and purchase of Ghost Trader tokens (as referred to in this Lite Paper) is to be governed by only the T&Cs of such agreement and no other document. In the event of any inconsistencies between the T&Cs and this Lite Paper, the former shall prevail. No regulatory authority has examined or approved of any of the information set out in this Lite Paper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Lite Paper does not imply that the applicable laws, regulatory requirements or rules have been complied with.

RISKS AND UNCERTAINTIES

Prospective purchasers of Ghost Trader tokens (as referred to in this Lite Paper) should carefully consider and evaluate all risks and uncertainties associated with Ghost Trader, the Distributor and their respective businesses and operations, the Ghost Trader tokens, the Ghost Trader Initial Private & VIP Token Sale, all information set out in this Lite Paper and the T&Cs prior to any purchase of Ghost Trader tokens. If any of such risks and uncertainties develops into actual events, the business, financial condition, results of operations and prospects of Ghost Trader and/or the Distributor could be materially and adversely affected. In such cases, you may lose all or part of the value of the Ghost Trader tokens.
